## Family Worship

### ① Simple

**Make Worship easy to relate to:**

- Do one story a day or two verses an evening.
- Let each one list some things they observe in the paragraph, such as places, people, things, special words, meanings, applications, insights, and share.

### ② Involvement

**Get the whole family involved:**

- Let all participate. Those who can read should take turns in reading as well as in praying.
- Encourage children to take family worship. This is a good way to develop spiritually and gain self-confidence.

### ③ Memorable

**Family Worship must have lasting impact**

- Make up a tune for a favorite Bible passage each week. Sing it during family worship.
- Choose passages from an easy version to commit to memory during worship.

### 5 Lesson

**Ask what Lessons have I learnt:**

- Ask what lessons have I read from the passage shared?
- Ask what lessons can I be an example of today?

### 6 Example

**Every Family worship must have an example to live by:**

- Ask Yourself:  
How can I be an example to others?  
What can I do to show others that Christ lives in me?
- Tell Yourself  
This is how I will be an example.  
This is what I want to do as Christ's follower.
